GreyNet Newsline Nº 28/2026 ● https://www.greynet.org/newsline.html

Over the years, GreyNet International has initiated multiple projects dealing with grey literature. Some have advanced to sustained information resources, while others were discontinued. Since the content of the latter still remains within GreyNet's inhouse archive, the Open Data Project seeks to secure their FAIR use. GreyNet strives to make these information resources openly accessible for purposes of referencing, citation, and reuse. Some of these resources will entail DOI minting or the assignment of other identifiers, the addition of metadata, and the designation of URLS and/or landing pages

GreyNet Open Data Project

Document Type:	doi	GreyNet Website	November 2026
