

# GREYNET PATRON VOUCHER

*GreyNet* currently offers three types of membership to the international grey literature community

**Associate Membership** including representation on GL Program Committees, Corporate Authorship of GreyNet's print and electronic publications, Advertising benefits, as well as other benefits afforded Program and Conference Sponsors

**Institutional Membership** including Advertising benefits, Subscription benefits, as well as other benefits afforded Program and Conference Sponsors

**Individual Membership** including the Conference Proceedings, Invitation to the Awards Banquet, and savings on other products and services

GreyNet Members guarantee the continuity in the line of information products and services rendered the international grey literature community. GreyNet Members enable the network to initiate and carry out R&D programs, which are the key to GreyNet's future on the ever expanding information landscape.

**NEW**

This year, alongside current memberships, GreyNet introduces a voucher program. This program allows GreyNet Patrons to apply their voucher fee to the products and services of choice. GreyNet Patrons are entitled to a 10% reduction on all information products and services, which includes subscriptions to publications, conference fees, workshops, invitations to the Awards Banquet, and a suite of print and online advertising offers. The names of GreyNet Patrons will appear on GreyNet's Website and are published in GreyNet's bimonthly Newsletter.

A minimum Patron Voucher is €100, no maximum amount is set. Balance statements are issued with every purchase; and the remaining balance is carried over to the next year.

I invite you to consider GreyNet Membership, a GreyNet Patron Voucher, or any one of the information products and services produced and distributed on behalf of the international Grey Literature Network Service.
