Editorial Model Persistence in Grey Literature

Stefania Lombardi, DIITET-CNR, Italy

“Posters offer a valuable mode of presentation and provide a lasting visual imprint”

The physical posters will be on display on both days of the event. Brief introductions to the posters will be presented on the afternoon of Day One during the ‘Poster Session and Sponsor Showcase’ followed by poster viewings. Individuals are also encouraged to submit their poster in digital format along with an MP4 pre-recorded presentation that will be later published and openly accessible on the TIB AV-Portal.

Those presenting posters are also eligible for the Poster Prize 2026. The winning poster will be announced during the Closing Session. Posters will be judged by a panel of jurors based on their innovative content, relevance to the forum topics, graphic design, and accompanying abstract.
